## OBJECTIVE

---

Dedicated and experienced professional with a strong technical background and excellent problem-solving skills. Seeking a challenging and stimulating work environment, which gives me opportunity to demonstrate and enhance my skills and at the same time enable me to contribute towards the growth of the organization.

## PROJECTS

### **Project Title: CaringWays**

**Duration:** September 2021 – September 2023

**Technologies:** Python, Django, PostgreSQL

**Description:** A private fundraising platform that worked with healthcare providers to help patients in meeting their health care expenses.

### **Roles and Responsibilities:**

- Part of the development team in building the CaringWays platform, ensuring seamless functionality.
- Diligently managed bug tracking and ticket resolution processes, ensuring the platform's reliability and optimal user experience.

### **Project Title: SRG LifeNet**

**Duration:** May 2024 – June 2024

**Technologies:** Python, FastAPI

**Description:** A Web Application for US-based technicians platform for organs donated. Designed and implemented robust and scalable API endpoints using FastAPI.

### **Roles and Responsibilities:**

- Involved in the end-to-end development lifecycle of the LifeNet platform, ensuring timely delivery and adherence to project specifications.
- Collaborated closely with clients and product managers to understand project requirements

## EXPERIENCE

Programmer Analyst in SysTalent, Kochi (May 2024- Present)

- Involved in Issue fixing and debugging activities.
- Interacted with US based clients to discuss and resolve issues.
- Developed and maintained web applications using Python and FastAPI.
- Participated in code reviews, providing constructive feedback to enhance code quality and maintainability.

Backend Developer in LogicPlum Inc, Trivandrum (September 2021- September 2023)

- Worked closely with product owners and stakeholders to gather and refine requirements, ensuring alignment with business goals.
- Collaborated with cross-functional teams to identify and resolve quality issues throughout the product development lifecycle.
- Performed Analysis on physician hiring, report generation and medical campaigning applications.
- Conducted thorough testing, including unit testing and integration testing, to ensure the reliability and functionality of software components.
